Letter of Recommendation for Sireesh Limbu

It is my pleasure to recommend Mr. Sireesh Limbu for admission to a graduate program in your esteemed university. I have known Sireesh for last four years as his course instructor and course project mentor.

I have taught Sireesh two fluid mechanics courses; Process Fluid Mechanics and Computational Flow Modelling (CFM). I know him as an attentive, bright and sincere student in the class. He was always enthusiastic about learning new concepts in the courses. As a part of a course project for CFM, he worked on "CFD modelling of a falling nonspherical body" where he used ANSYS Fluent for the prediction of free and impinging flows. He provided interesting discussion of the complex problem, proved his good analytical skills.

Initial findings of this project motivated us to take our research for further investigations. He has shown immense interest and working efficiency in his project by identifying relevant literature and studying the required literature by himself. For the entire duration of the project, Sireesh managed his academics and extracurricular activities along with the research project with ease showing immense time management which particularly impressed me.

Sireesh is determined, punctual and dedicated to his work. He has demonstrated great perseverance, discipline and hard work. He also exhibited excellent work ethic and leadership qualities as well as good communication skills with his fellow team members.

Eventhough his CGPA is not very high, I evaluate Sireesh as intelligent, dedicated person, who is ready to achieve his goals. His performance at the undergraduate project is a good indication of how he would perform at the graduate level as a student and would be an extremely positive asset to your program. Hence, I strongly recommend Mr. Sireesh without any reservations for his admission to o your prestigious Machine Learning program. If you have any further questions with regard to his background or qualifications, please do not hesitate to contact me.

Sincerely,

Dr.Partha Sarathi Goswami
Assistant Professor
